

Rockbuster Stealth LLC: Data Analysis Project

Presented by Neena Tilton

January 2022

Project Overview

GOAL

Rockbuster Stealth LLC has been a leading movie rental company with extensive movie licenses. In more recent years, with streaming services becoming more commonplace, Rockbuster faces stiff competition in keeping the lead. To stay competitive, Rockbuster will enter the online streaming service with a detailed launch strategy that will maximize this new and exciting shift.

OBJECTIVE

This project will inform the new launch strategy by identifying the following: Which geographic location to prioritize, which types of film are most popular, and who our top customers are to include our new rewards program.

Sales of Last Three Months

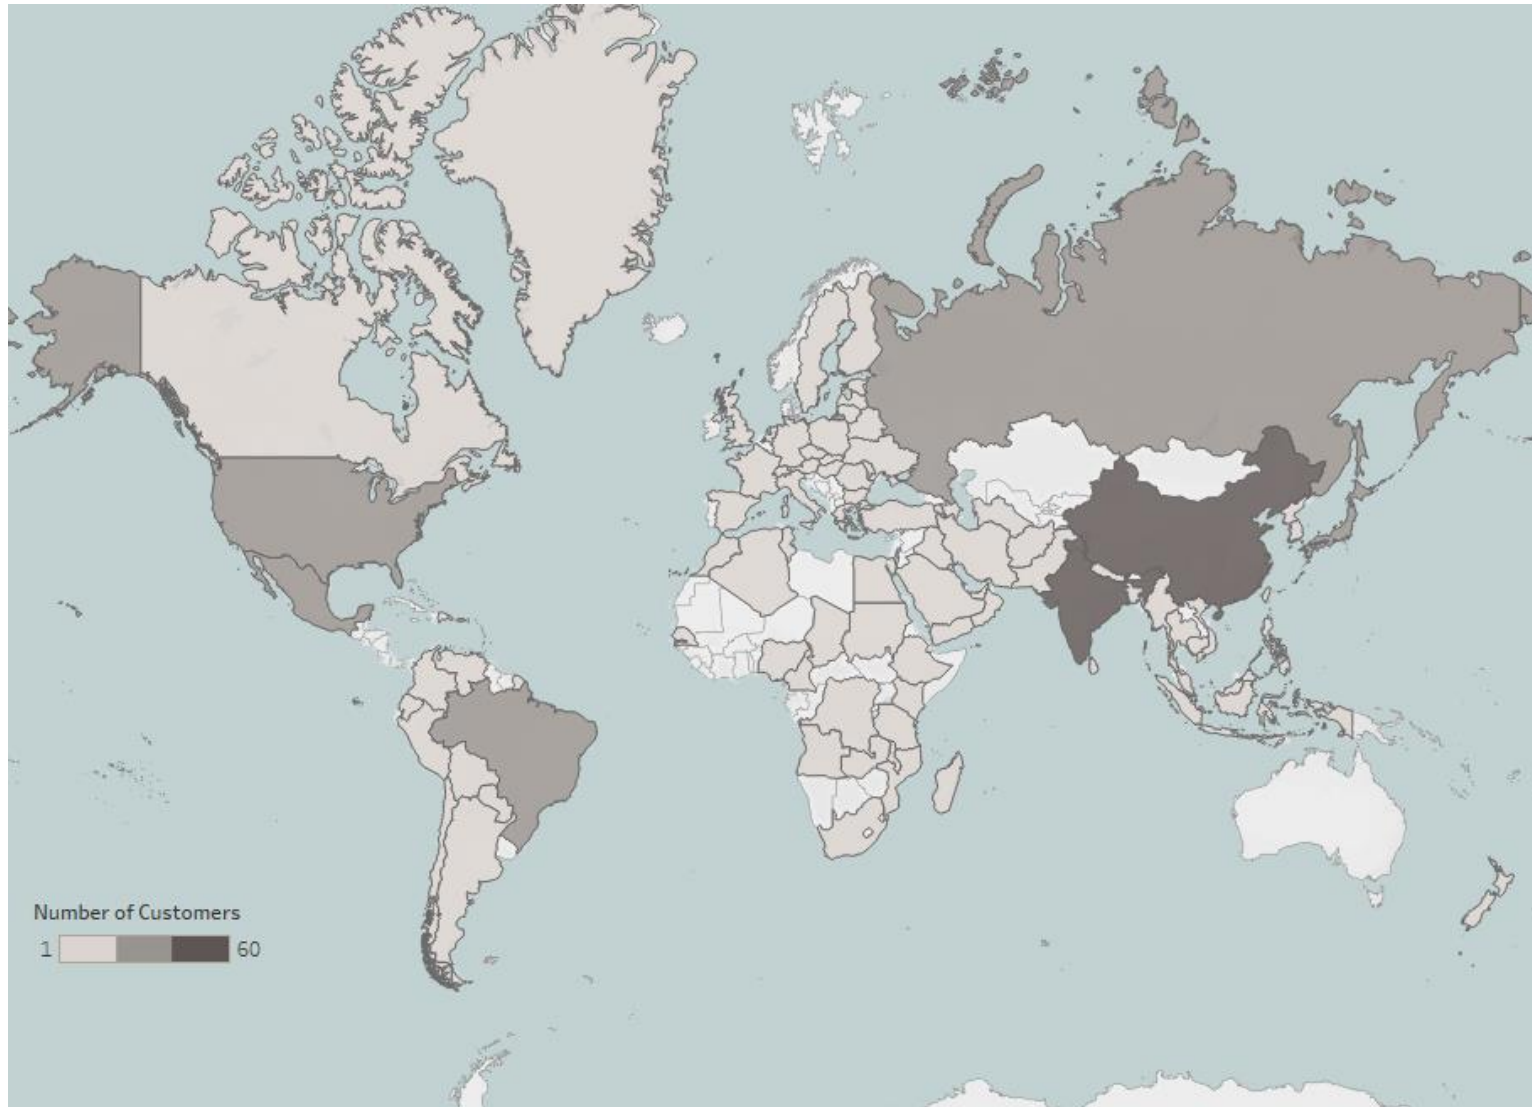

Declining Sales

Total revenue from rentals for the last month has been rapidly declining, no doubt due to competition from other rental companies offering online streaming option. We are confident that Rockbuster will see increase in revenue by launching an online streaming service to our customer base.

Where Are Rockbuster
Customers Located?

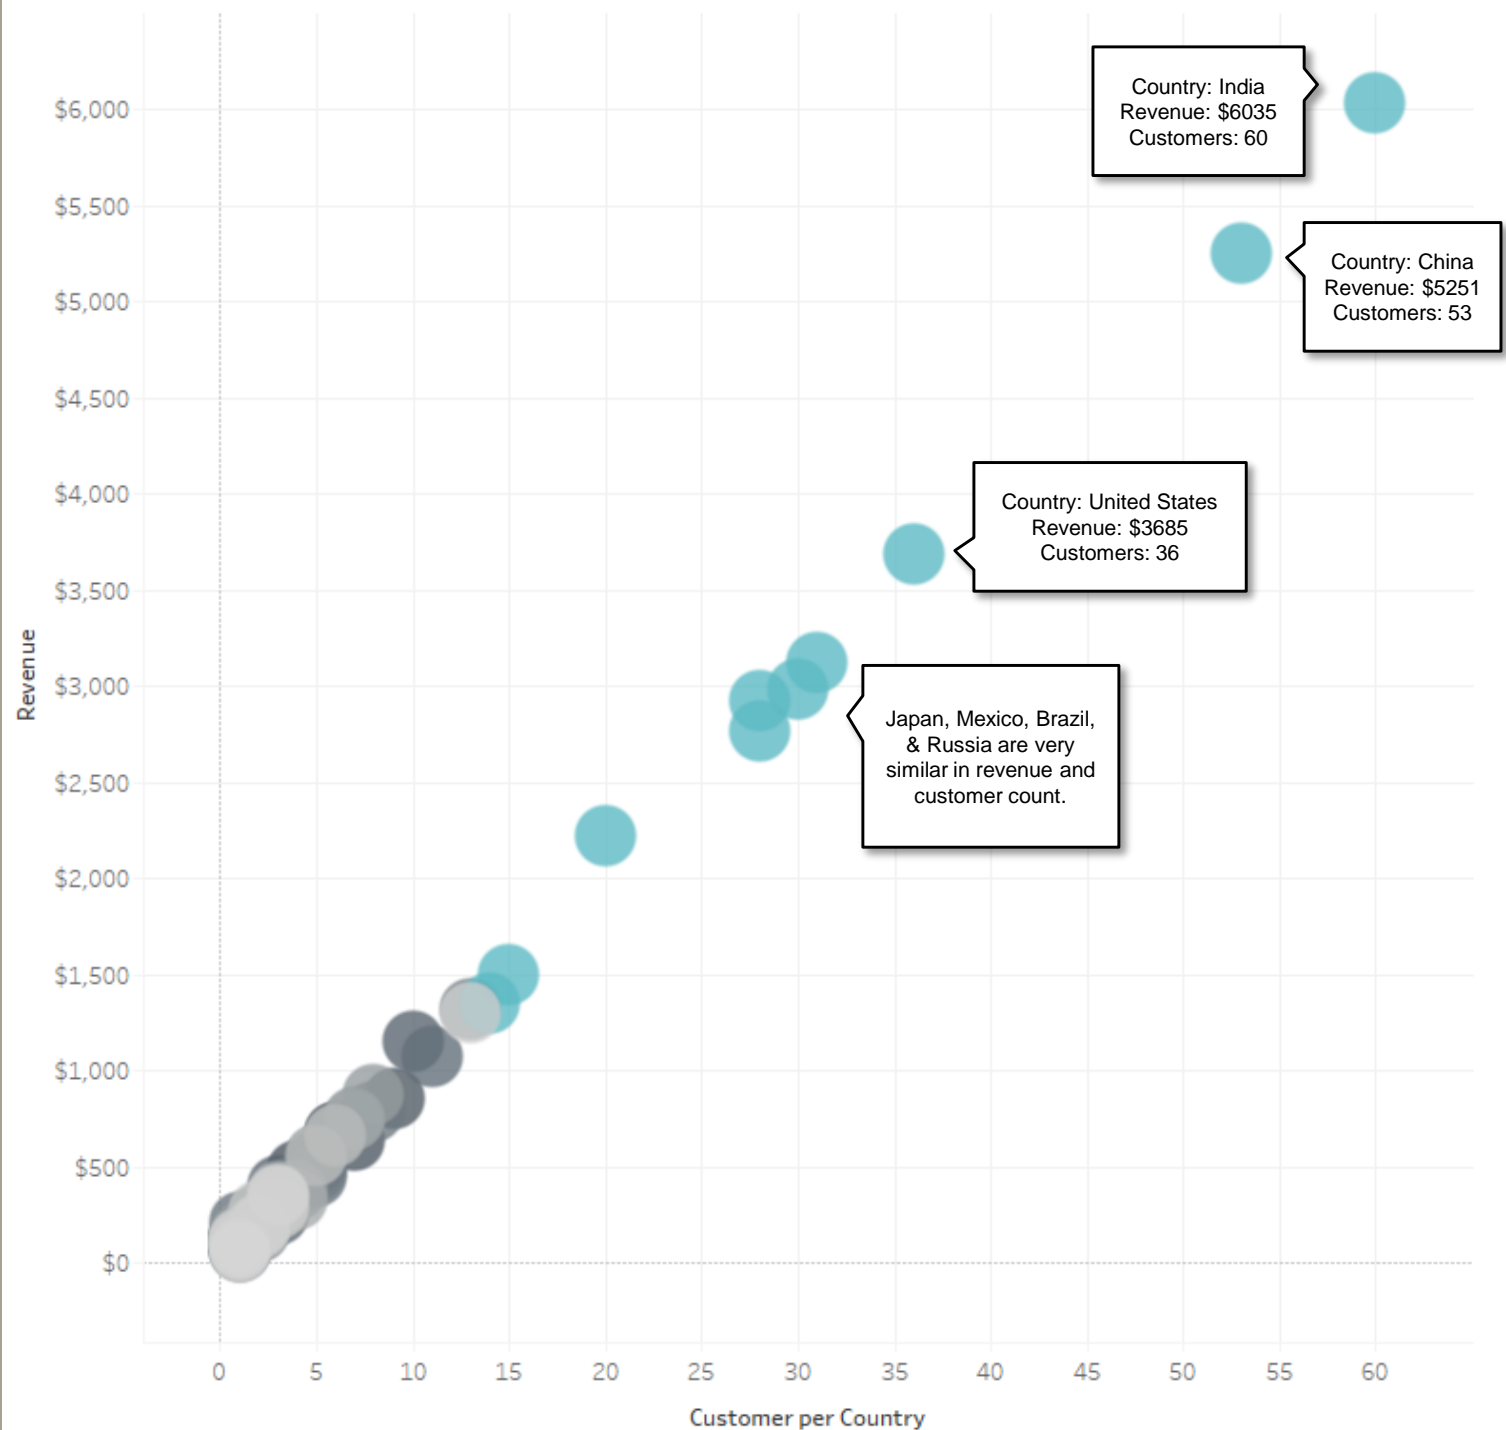

Global Customer Base

Rockbusters LLC currently has customers located throughout the world. However, the areas with higher total count of customers are found within **Asia**, **Americas**, and **Eastern Europe**.

Conclusions

Insights and Recommendations

- As Rockbusters enter the realms of online streaming, prioritize marketing in geographical locations with already a robust customer base.
- Since average rental duration was 4.9 days, let all online streaming rentals last up to 5 days.
- Encourage customer loyalty and rental frequency by offering rewards program for customers who make 30+ rentals.
- Top 10 Films generated on average a revenue of \$189.04, whereas Bottom 10 Films generated \$6.74; consider eliminating any films with total revenue less than \$20.00 to make space for more popular titles.
